

ENVIRONMENTAL POLICY

HERSILL, S.L. has adopted a commitment to protecting the environment based on ISO 14001:2015 that ensures the prevention of contamination and the minimisation of environmental impacts; to that end it undertakes to:

- *Perform, for all new activity or process, from its inception, a preliminary study to assess its impact on the environment.*
- *Examine all significant effect on the environment originating from environmental aspects deriving from the company's activities.*
- *Adopt the measures needed to prevent and eliminate all contamination or accidental emission into the natural environment.*
- *Adopt the measures needed to minimise, value and recycle waste, to the extent possible, ensuring their suitable management when there are no other alternatives.*
- *Adopt the measures needed to save raw materials including, where posible, their re-use.*
- *Adopt the measures needed to save energy and water.*
- *Calculate and, if posible, reduce the company's Carbon Footprint.*

All of which will be carried out in the framework of continuous improvement by:

- *Setting environmental objectives and goals.*
- *Applying the technical, human and economic means needed to achieve the objectives set.*
- *Assesing the degree of compliance with those objectives.*

All in accordance with legal requirements and other applicable environmental requirements, related to environmental aspects (waste production, noise emissions and atmospheric emissions, water discharges, consumption of raw materials....) and with all the demands imposed by the company itself.
